Home Enrollment Form

v16
2022-05-04

This form constitutes an agreement between Green Think Inc. and the Builder listed below. This agreement forms part of a larger agreement which includes a "Builder Enrollment Disclosure Agreement & Attestation" form. By signing this form, the Builder agrees to construct the homes in accordance with the technical and administrative requirements of the programs into which they are herewith being enrolled. The Builder further commits to complete the work in full, and to pay any and all associated Green Think Inc. fees as noted below. Please note that this form does not include fees payable directly to governing bodies of the programs (i.e. Green Building Councils, Built Green Canada), nor does it include fees payable to the Rater.

Instructions:

1. Complete the fields in yellow and e-mail to **info@greenthinkinc.com**
2. An e-mail confirming the enrollment, including each home's unique enrollment ID, will be sent to the Builder and/or Rater (per the Rater's preference), followed by the enrollment invoice.

Clarifications:

-Where the Enrollment Fee 'varies', Green Think Inc. will coordinate a separate agreemet.

-***Multiple program discount***: where homes are enrolled in multiple programs, 100% of the enrollment fee for the highest cost program is applied, and enrollment fees for subsequent programs are subject to a 50% discount. ****EXCEPTION**: for homes enrolling in both ENERGY STAR and EnerGuide (e.g. homes pursuing ENERGY STAR performance path, that would also like to receive the EnerGuide label), the fee is a nominal $135 per home.
